

+15 BRIDGE HOURS DURING CORONAVIRUS EMERGENCY

BOMA Calgary has heard from numerous downtown building management teams that securing buildings after-hours is proving a challenge with +15 bridges remaining open, especially in the context of lower than usual tenant space occupancy.

This afternoon BOMA Calgary relayed these concerns to the City of Calgary, who have granted approval to amended +15 hours for the duration of this emergency. As such, **you may now close your +15 bridges at 6:00pm, to re-open at the standard time in the morning (6:00am or 7:00am, depending on location).**

Please be sure to communicate these changes with tenants, and ensure there is adequate signage at the bridges outlining amended operating hours.
