

BOMA Calgary Downtown Safety Survey

BOMA Calgary's Public Safety and Government Affairs Committees, with our partners at the Calgary Downtown Association, are looking to collect data to support our ongoing advocacy to improve public safety in Calgary's downtown. This information will be used in our engagement with municipal and provincial decision makers to create or expand programs making Calgary's downtown safer. The information will be used to paint a complete picture for policymakers to show on-the-ground impacts of crime and social disorder.

We are requesting participation in order to have enough data to facilitate change. You are encouraged to share links to surveys with interested parties, however we ask that you please limit sharing them with parties that can provide the information requested.

Survey links will remain live until **February 28, 2023**.

What is being collected?

We are hoping to collect information on how your property or properties have been impacted by the following:

Crime (number of instances), Social Disorder (numbers of instances), Time/Location of Incident Occurrence, Overall Costs Associated, and Impact on Emergency Responders

How will the data be used?

The information will be collected and aggregated by zone (descriptions and map below). Our survey is collecting information at a building level, but any information presented to decision makers will be presented by zone to protect anonymity and support effective program deployment. Once information is collected access to the fillable surveys will be removed.

Instructions

1. Please do not enter your building name in the survey.
2. Review your properties and ensure you are filling in the information for the correct zone number associated with that property or properties.
3. Once you have identified your zone, fill in each column with the relevant information for each property. Please limit information provided to ONE property per column.
4. Exit the browser once you have completed entering your information

Zone Map

ZONE 1 - 14 Street to 9 Street & 4 Avenue to CPR Tracks

Zone 1 Survey

ZONE 2 - 9 Street to 5 Street & 3 Avenue to CPR Tracks

Zone 2 Survey
